

Aarav Mehta

Senior Backend Engineer

aarav.mehta@example.com | +91 98765 43210 | Bengaluru, India

PROFESSIONAL SUMMARY

Backend engineer with 9+ years of experience building high-throughput APIs and event-driven systems in Python. Led a team of six and cut p95 latency by 60% across the payments platform.

EXPERIENCE

Staff Software Engineer, PayNest Technologies | Mar 2021 - Present

- Designed a microservices architecture in Python and FastAPI processing 4M payment events per day
- Introduced Kafka-based event streaming and PostgreSQL partitioning, reducing p95 latency by 60%
- Mentored 5 engineers and ran code reviews; owned CI/CD pipelines on GitHub Actions and Kubernetes

Senior Backend Developer, CloudKart | Jan 2019 - Feb 2021

- Built REST APIs with Django and Redis caching serving 2M monthly users
- Migrated services to Docker and AWS ECS with Terraform

Software Engineer, InfoStack Solutions | Aug 2017 - Dec 2018

- Developed internal tooling in Python and PostgreSQL

EDUCATION

M.Tech in Computer Science, Indian Institute of Technology Delhi (2015 - 2017)

B.Tech in Information Technology, Delhi Technological University (2011 - 2015)

TECHNICAL SKILLS

Languages: Python, SQL, Bash, Go

Frameworks: FastAPI, Django, Celery

Data: PostgreSQL, Redis, Kafka, Elasticsearch

Cloud & DevOps: AWS, Docker, Kubernetes, Terraform, GitHub Actions, CI/CD

CERTIFICATIONS

- AWS Certified Solutions Architect - Associate (2022)
- Certified Kubernetes Administrator (CKA) 2023
